The shipments of dressed beef from the says have so decreased during the last ten days that cars are piling up in the railroad yards.

Shipments of cattle have been curtailed by the packers, the Chronicle says, and every branch of the great industry is suffering from the present critical situation. The only hope for restoration is in cutting the prices.

Diseases Peculiar to Women.

This title includes a number of the nost distressing affections to which humanity is liable. The symptoms set up by the various phases of female weakness are very numerous, and in no two cases exactly alike.

The most prominent and universal symptoms are bearing down pains, dragging sensations in abdomen, backache, leucorrhœa, nervousness, periodical headaches, sleeplessness, dizziness, loss of appetite and painful or suppressed or profuse menstruction.

For all of these symptoms, as well as for the condition that causes them, Peruna is a reliable specific, and at once relieves every case. It will not fail in a short time to permanently benefit these derangements. It will, finally, entirely cure a great majority of them after all else has failed.
